

# wAP R accessories guide

We are offering full range of accessories in order to connect mANT LTE 5o antenna to our LTE product line. R11e-LTE or R11e-LTE-US miniPCIe card can be installed to wAP R unit. R11e-LTE / R11e-LTE-US cards have two U.fl connectors, where ACSMAUFL pigtails can be connected. ACSMAUFL pigtails have SMA connectors, that fit nicely in special mounting places of wAP R. SMASMA cables then can be used to connect ACSMAUFL pigtails to mANT LTE 5o antenna with SMA connectors.
